## PROJECTS

### Netflix Clone

Jul 2023

- Engineered a functional Netflix clone, implementing features through a combination of **HTML5, JavaScript, and CSS frameworks**.

### Restaurant Website Interface

Jul 2023

- Designed and developed a non-functional restaurant website using the **Tailwind CSS** framework, focusing on aesthetic and layout aspects while showcasing the capabilities of the framework.

### Admin Dashboard Interface

Jun 2023

- Created an admin dashboard utilizing the capabilities of HTML5 and CSS3, resulting in a well-designed interface for managing administrative tasks.

### Temperature Converter Web App

Jun 2023

- Accomplished the development of a responsive web app for converting temperatures, ensuring a **smooth and adaptable user experience** across different devices and screen sizes.

### Personal Portfolio Website

May 2023

- Successfully designed and developed my responsive personal portfolio website, utilizing the power of **Tailwind CSS** to ensure optimal performance across different devices and screen sizes.

### To-Do List

Apr 2023

- Designed and implemented a responsive to-do list application that adapts seamlessly to various screen sizes and devices.

### Calculator Web App

Apr 2023

- Developed a responsive calculator web app capable of executing fundamental arithmetic operations, providing users with a **user-friendly** interface for addition, subtraction, multiplication, and division.

### Admin Login-Signup webpage

Jan 2023

- Crafted a sleek and intuitive **user interface (UI)** and **user experience (UX)** by employing the latest features of HTML5 and CSS3, ensuring a modern and visually appealing design.

## CERTIFICATIONS

### UI/UX for Beginners - Great Learning

Aug 2023

- I hold a certificate from Great Learning, indicating that I have successfully completed a course focused on basics of UI/UX designing using a tool called FIGMA.

### HTML, CSS and JavaScript for Web Developers - Johns Hopkins University

Jun 2023

- I have acquired the knowledge of linking JavaScript and CSS to HTML documents, as well as mastering the usage of JavaScript and CSS frameworks. Moreover, I've gained the ability to develop responsive webpages, ensuring optimal display across various devices.

### Digital 101 Journey - NASSCOM

Mar 2023

## DECLARATION

I declare that all the facts given above are genuine to the best of my knowledge and belief.
